

**Preliminary Program
for the Frühjahrstagung 2016 of the German 'Arbeitskreis zur
Erforschung der Nationalsozialistischen "Euthanasie" und
Zwangssterilisationen'
in The Netherlands**

Proposed title:

**An international comparison of national findings with regard to the
fate of psychiatric patients in psychiatry during WW II**

Goal:

1. To present new findings about Dutch psychiatry during WW II to the members of the Arbeitskreis and to compare these findings with findings of German researchers on Germany and (maybe) those of Ilse von Bueltzingslöwen about France;
2. To stimulate international co-operation between Dutch and German historians/scientists on WW II;
3. To arrange a meeting between the Dutch Museum for Psychiatry and several interested representatives from German Gedenkstätten/musea, in order to prepare a future co-operative exposition on „Psychiatry during WW II“ in Haarlem, The Netherlands;
4. To arrange a meeting between representatives from diverse Dutch and Belgian psychiatric institutions who studied their own history during WW II with the German Arbeitskreis.

Date:

Friday evening, May 20th 2016, 18.00 hrs. –
Sunday Afternoon, May 22nd 2016, 14.00 hrs.
